## EDUCATION

**Bachelor of Technology-** Rai university

**CGPA:** 9.4/10

**HSC** -PP savani international school,surat

percentage-**71%**

**SSC - 96.08pr**

## PROJECTS

### FREELANCING PAID-PROJECT

#### YARITU - Luxury Wedding Outfits on Rent

[link](#) [Github-link](#) [Api documentation](#) [Demo video](#)

- Developed a rental catalogue using Next.js 15 (App Router) and MongoDB/Mongoose, leveraging Vercel for high-performance deployment.
- Built a custom dashboard using Next-Auth for secure access and Sanity CMS for dynamic inventory management.
- Optimized asset delivery by integrating AWS S3 and Cloudinary for scalable storage and automated CDN caching.
- Technologies: Next.js, React, MongoDB, AWS S3, Cloudinary, Next-Auth, Sanity CMS, Framer Motion.

### MERN STACK

#### Shyara Gold - Your Style, Your Statement.

[link](#) [Github-link](#) [Api documentation](#) [Demo video](#)

- Engineered a high-performance jewelry e-commerce platform using React and Node.js, featuring dynamic data fetching for best-selling items and editorial content.
- Developed a REST API with Express and MongoDB Atlas, supporting complex operations like user-generated design uploads and storage.
- Streamlined media management by integrating Cloudinary and Multer for automated image processing and cloud storage.
- Technologies: React, Node.js, Express, MongoDB, Cloudinary, Framer Motion, Axios.

#### Tattoo Studio

- Open Source Contribution

[link](#) [Github-link](#) [Api documentation](#) [Demo video](#)

- **Loyalty & Rewards System:** Architected a tiered membership program (Silver, Gold, Platinum) using React and Node.js, automating point accumulation for bookings and referrals to drive repeat customer engagement.
- **User Dashboard:** Developed a secure JWT-authenticated digital wallet for real-time tracking of reward points, redemption history, and tattoo appointment logs.
- Technologies: React, Node.js, Express, MongoDB, JWT, Mongoose.
